

“Play Dates” are informal, one session workshops in Fused Glass. Even if you’ve never seen glasswork before, you can come to a Play Date and create your own glass art.

Play Dates are for adults and kids. All you need to bring is your creative energy!

In these 90 minutes sessions, you will select a project, choose your own glass and then learn to cut, grind and assemble it for firing and slumping. Projects for children (ages 5 to 11) don’t require glass cutting.
